

Real Estate Listing Non-Exclusive License: Single Use. A rights managed single use license granted to listing agents for one property for one sale or one long term rental with the additional right to self-promote as outlined below.

Upon receipt of payment, ShowSpaces Photography, LLC grants the use of the media produced of the subject address to:

1. The invoiced listing agent client has the right to reproduce, publicly display, and distribute the media for promotional and advertising purposes directly related to, and for the exclusive purpose of, **listing the property for one sale or one long term rental**. This includes distribution to the MLS, feeds, local print marketing, social media, and syndication, for the duration of the listing while representing the sale or long term rental of the subject property.
2. Outside of the sale or rental of the property, the invoiced listing agent client may use the media for self-promotion for an unlimited time period beyond the active listing time frame in the local area. This right does not extend to another company or individual. When media is used for self-promotion, not marketing the property for sale or rent, written credit to ShowSpaces Photography is required. This includes print and Online use, including social media. If the client would like to remove the credit to the photographer requirement, an additional fee may be quoted.

Neither right includes using the imagery for marketing another property for sale or listing the property for rent more than once unless that additional right is expressly purchased.

This license is not transferable. Any commercial use of the images by a third party, including but not limited to builders, stagers, designers, contractors, rental agencies, a new listing agent, sellers, or buyers is strictly prohibited unless approved in writing by ShowSpaces Photography LLC.

Once the property is sold, the sellers may receive imagery files from the photographer free of charge with the written limitation of personal use only. Send us your seller's name and email so we can send the image files with the personal use release.

ShowSpaces Photography LLC retains copyright of all imagery created. Please note, for all media delivered, the invoiced client is granted licensing, not ownership, upon payment bound by the licensing terms as invoiced.

If further use is desired for additional time frames and/or uses by the client and/or another person or entity, ShowSpaces Photography LLC must be contacted for licensing fees and written permission.

Any other issues related to our services are bound by our terms of service and its associated and linked documents found here: <https://showspacesphoto.com/terms-of-service/>
